PROFESSIONAL SUMMARY

Experienced game developer proficient in both Unity and Unreal engines with a strong focus on core system design including combat, networking, and UI integration. Demonstrated success in developing singleplayer and multiplayer titles across multiple platforms.

SKILLS

- **Programming Languages:** C++, C#, C, Python, Unreal Blueprints, Gdscript, Java, Javascript, HTML5.
- **Databases:** Firebase, Firestore, Cloud Data storage, Oracle, Mongo, and MySQL.
- **Development Tools and Platforms:** Unreal Engine, Unity, Godot, JIRA, Unit test, Git, Perforce, Azure VC, Azure Playfab, Mobile, Android, IOS, Web, PC, Windows, Linux.

GAME DEV EXPERIENCE

Crouton Games, Bad Tides

2026 – Present

Lead Game Developer

- Lead developer for Crouton Games, an indie startup with a team of ~20 working on “Bad Tides”, an upcoming title to be released in Q4 2026.
- Programmed gameplay systems including player movement, water-based combat, boat physics, player inventory, and day/night cycle.

Yooper Games, Exodus of Descent

2024 – 2026

Unreal Engine Game Developer

- Developed a 3D multiplayer Dungeon Looter RPG using Unreal engine C++ and blueprints with a team of 16 developers and artists.
- Built systems including player inventory, equipping, looting, crafting, buying, selling, dropping, and interactables as well as syncing many of these systems.
- Expected to launch on steam this year:
https://store.steampowered.com/app/2320740/Exodus_of_Descent/

Unity Asset Store

2024 – 2026

Asset Store Publisher

- Published high quality and well received assets on the unity asset store.
- Assets include systems including building, light detection, and RPG-type abilities
- <https://assetstore.unity.com/publishers/113743>

Diaspora Games, Ghostcon Elementals

2024 – 2025

Unreal Engine Lyra Game Developer

- Worked on a large existing codebase to create new core systems as a gameplay engineer.
- Used Perforce for version control
- Steam Page: https://store.steampowered.com/app/2335890/Project_Elementals/

TwoPow, Cubox

2023 – 2024

Unity Web Game Designer

- Designed Gameplay mechanics for a live web-based MMORPG
- Balanced weapons, stats, enemies, and items
- Live on web: <https://cubox.io>

Kelle Z Riley, Sci-Spy Match!

2022 – 2024

Godot App Game Developer

- Built game foundation using Godot Game Engine
- Focused on Backend including managing user data with a cloud database
- Collaborated with 6 developers using the Agile work structure as the scrum master
- Led development progress with JIRA

Recharge Gaming League

2017 – 2026

Professional FPS Anti-Cheat, Map Designer, Moderator, and Competitor

- Worked on the anti-cheat team as well as general moderation.
- Helped to design maps used for competitive play. Especially focusing on class and side balance.
- Played competitively at a high professional level giving me insight into intentional game design including balancing, smooth mechanics that feel right, and level design.

OTHER EXPERIENCE

Pack Rats

2026 – Present

Computer Tech and Software Dev

- Diagnosing and repairing computers and consoles.
- Point of Sale development using Odoo.

Roane County Election Office

2025 – 2026

Seasonal IT Support Specialist

- Provided IT support for election office technology resources including computers, printers, and ballot boxes during local elections 2-3 months a year.

Tennessee Technological University

2021 – 2024

Computer Science Teaching Assistant

- Tutored undergraduate computer science courses, covering programming, databases, computer architecture, algorithms, version control, and operating systems.
- Assisted professors in DevOps and Unix classes by conducting lab sessions, debugging programs, and providing feedback on effective programming practices.

21st Century Community Learning Center

2018 – 2021

Afterschool and STEM Summer Camp Assistant

- Tutored children in STEM fields including programming, math, and science, utilizing online tools (code.org, CodeHS) and physical tools like Sphero coding robots.
- Developed foundational programming lessons focusing on algorithms and interactive learning.

AYSO, TSSAA, Tennessee Tech Intramurals

2014 – Present

Soccer Official

- Refereed soccer at multiple levels including middle school, club, high school, college intramural and collegiate.
- Lead referee trainings for both center and assistant referees.
- Took trainings for CPR, Heat stroke prevention and first response, and concussion recognition and prevention.

EDUCATION

Tennessee Technological University

Fall 2021 – Spring 2024

Bachelors, Computer Science

GPA: 3.34

Dean's List

AWARDS

- **10+ Game development related certifications from LinkedIn, 2020 – 2025:** I have successfully finished the certifications gained from LinkedIn Learning including fields such as Unity, Unreal Engine, Blueprints, C programming, game design, Virtual Reality, Augmented Reality, and Level Design.
- **Tennessee Tech Gold Career Readiness, 2021:** Awarded for showing competence in skills such as communication with colleagues and clients, critical thinking, equity and inclusion, financial literacy, leadership, professionalism, teamwork and collaboration, and technology knowledge and efficiency.
- **NSLS leadership and training certificate, 2023:** Successful completion of the National Society of Leadership and Success foundation of leadership training program.
- **National Honors Society, 2021**
- **Association for Computing Machinery, 2021**
- **National Society of Leadership and Success, 2023**
